

## **State Road (S.R.) 388 from S.R. 79 to east of Northwest Florida Beaches International Airport**

**Financial Project Number: 424464-5-52-01**

### **Frequently Asked Questions**

#### **What work is being performed on S.R. 388?**

The S.R. 388 project will construct a four-lane roadway from S.R. 79 to east of Northwest Florida Beaches International Airport. Improvements along the four-mile project include a new traffic signal at the new S.R. 79 and S.R. 388 intersection alignment, a multi-lane roundabout at the entrance to Northwest Florida Beaches International Airport, a new bridge over Crooked Creek, a twelve-foot shared-use path along the south side, and buffered bike lanes. Once the project is complete, the former S.R. 388 at S.R. 79 will become County Road (C.R.) 388.

#### **Where can I find additional roundabout information?**

For more roundabout information, visit [www.alerttodayflorida.com/roundabout.html](http://www.alerttodayflorida.com/roundabout.html)

#### **How long will it take to complete the work?**

Work is scheduled to be completed fall 2023.

#### **How much does the project cost and how it is being funded?**

The construction cost is approximately \$50.6 million. The project is being funded by the Florida Department of Transportation (FDOT)

#### **Will there be any traffic impacts during the construction period?**

This is a multi-year construction project. Much of the work on S.R. 388 will take place off the existing roadway. S.R. 388 and S.R. 79 intersection improvements will occur early in the project while S.R. 388 and C.R. 388 intersection improvements will occur later.

During the roundabout construction drivers can anticipate nighttime temporary lane restrictions near the Northwest Florida Beaches International Airport entrance.

No lane closures will occur from 6 a.m. to 8 p.m. Monday through Friday, and 5 a.m. to 7 p.m. Saturday or Sunday.

Construction activities are weather dependent and may be delayed or rescheduled in the event of inclement weather. Motorists are reminded to use caution and to watch for heavy equipment and construction workers entering and exiting the roadway.

#### **Who is responsible for the construction work?**

The construction is being administered by the Florida Department of Transportation, District Three. Metric Engineering is providing construction engineering and inspection service in support of FDOT. The construction contractor is Superior Construction Company.

### **Where can I get more information about the project?**

There are several ways to get more information about this project.
